AMOGHA BHAT MR

amoghabhat74@gmail.com | +91 7760200927 | Bengaluru, India | LinkedIn | GitHub | Portfolio | Roblox Portfolio

PROFESSIONAL SUMMARY

Software Engineer and Developer experienced in full-stack web applications, AI-powered systems, AWS cloud infrastructure, and Roblox game development. Skilled in .NET, React, Luau scripting, Roblox Studio, Blender, UI/UX design, and optimized 3D asset creation.

TECHNICAL SKILLS

Programming: C#, Python, JavaScript, TypeScript, Java, C++, SQL, Dart, Luau / Lua, Shell Scripting (Bash), UML
Web & Backend: .NET 8 / Core, React.js, Next.js, Node.js, FastAPI, WebRTC, Microservices, RESTful APIs, HTML5, CSS3, Tailwind
AWS Ecosystem: Amazon EC2, S3, Lambda (Serverless), RDS, DynamoDB, IAM, RBAC, Load Balancing, CloudWatch, Route 53
AI & Data: Generative AI (LLMs), RAG, NLP, Transformer Models, Firebase, SQL Server, PostgreSQL, MongoDB, Schema Optimization
DevOps & Tools: Docker, Git, GitHub Actions, CI/CD, Vite, Postman, Vercel, Linux/Unix, Agile/Scrum, Jira
Engineering & Design: Distributed Systems, Network Security, Design Patterns, OOP, UI/UX Design, Responsive Web Design
Game & 3D Systems: Roblox Studio, Blender, 3D Modeling, Level Design, Game Mechanics, Audio/VFX, Asset Integration

PROFESSIONAL EXPERIENCE

Developer **Jul 2026 - Present**
Ayushree Herbals | Private Startup
- Designed branded soap covers and product packaging; developed a responsive company website showcasing herbal products.
- Built and delivered a separate GST-related website/tool supporting the company's business workflows.

Roblox Scripter & Artist **Ongoing**
Roblox Development Projects | Portfolio linked above
- Script interactive gameplay mechanics in Luau: player movement controls, checkpoint systems, touch triggers, sound effects, and UI overlays.
- Build 3D low-poly models, environment maps, and game props in Blender; import and configure assets with collisions and lighting in Roblox Studio.

AI Engineer / Software & Network Engineer **May 2025 - Jul 2026**
Colligence Research | Including Apps and Device
- Built Circle collaboration platform (.NET Core, AI chatbots, WebRTC) for 50+ members and Foundry ERP (C#, .NET, AWS RDS/S3, RAG).
- Integrated LLM workflows and Docker/GitHub Actions CI/CD, contributing to faster releases and streamlined data processing.
- Apps and Device (Apr - Jul 2026): developed Stucle education streaming (React/Node.js) across 9 states; optimized AWS EC2/S3 delivery for 10,000+ concurrent students.

Software Developer Intern **Jan - Apr 2025**
Centre for Development of Telematics (C-DOT), Govt. of India
- Developed C#/.NET/SQL Server internship portal for 100+ applicants; added access controls and optimized SQL retrieval by 30%.

KEY PROJECTS

Bhoomitayi - Real Estate | *Next.js, TypeScript, Firebase, AWS S3* | Live Site
- Built a property marketplace with Firebase authentication, real-time updates and 200+ listings.

Grok Notepad | *React, .NET, AWS Lambda, AI Agents* | Project
- Developed an AI-assisted productivity workspace with NLP tools and serverless backend functions.

Roblox Games & 3D Art | *Roblox Studio, Luau, Blender* | Portfolio
- Created gameplay mechanics, interactive UI, and 3D environment props for obstacle courses, stair climbing, and collectible games.

GST Invoice Calculator | *React, .NET, Docker, Firebase* | Project
- Developed GST calculations and downloadable PDF invoices for a web-based billing tool.

EDUCATION

B.E. in Computer Science | CGPA: 7.98 - NMAM Institute of Technology, Nitte | 2021 - 2025
12th CBSE | 81.20% - HMR International School, Bengaluru | 2019 - 2021

CERTIFICATIONS

Anthropic: Claude 101 | Google: Network Security & Cybersecurity | Internshala: Advanced Web Development | NPTEL: Object-Oriented Systems
